

Covid- Back to School Supply List

Virtual Learning (all items required)

- Working Camera
- Audio Headset/ Headphones
- Microphone
- Strong Internet Connection

In Person Learning

- Mask or face covering: Use permanent marker to label all masks with your child's name, as well as to indicate the mask's top, bottom, front and back.
- Resealable bag or container for masks: Label an empty bag or container for your child to store their primary or second mask in
- One or two spare masks: Send extra masks in a separate resealable bag or container, in case the mask your child starts out in breaks or gets dirty.
- Tissues: Send your child to school with their own pocket-size packets of tissues, so they're handy when they need to cover coughs and sneezes. Don't forget to practice at home!
- Hand sanitizer: It's a good idea for your child to have their own hand sanitizer so they don't have to share. Look for refillable keychains and containers that clip to their backpack, so they don't have to dig for it. **IMPORTANT:** To be effective, hand sanitizer should be alcohol-based with at least 60% alcohol.
- Personal disinfection/ Lysol wipes
- Reusable water bottle: If your child is thirsty, they can avoid the public water bottles
- Daily lunch bag, food will not be shared and microwave usage will be limited
- Personal school supplies: send your child with their own items, from notebooks to folders to pencils to glue sticks. There will be no sharing
- Personal Sajadah

All supplies listed are required.
