

# Darul Uloom Daily Covid Check

---

To be able to open schools safely, it is vitally important that communities take all necessary measures to limit the spread of the Covid-19. Darul Uloom Seattle will be implanting a hybrid clustering method for the 2020-2021 school year. The hybrid approach only works to lower the spread if families are limiting exposure at home. Hereunder are a few guidelines families should follow before sending their child to school:

- Parents should develop a routine for quickly checking their child for a fever in the morning and also confirm that their child does not have a cough or any other sign of illness. Don't send kids to school sick
- If any family members are sick or have underlying issues, please stay at home and attend classes virtually
- Bring your own school supplies. Darul Uloom will not provide supplies in order to minimize risks
- Disinfect and clean frequently used objects and surfaces coming in and from school
- Combine wearing of masks with frequent hand-cleaning using soap and water or alcohol-based hand rubs
- Limit all your non-essential travels

If you're sick or suspect yourself to be sick, it's best to stay in a designated room or area away from others. When you experience symptoms, seek medical attention immediately.
